DELIVERY

Your order for spring 1929 planting is solicited.

Five of single size and variety will be supplied at the 10 rate; 50 at the 100 rate. Spring shipping season usually opens about the first of April and continues until the end of May. Orders should be placed now, before the shipping season starts, to insure first selection of stock, as orders are filled in rotation as received.

Our stock is grown on upland soil—well cultivated and is of superior quality. An inspection of our stock will convince you of its strong sturdy growth. Well developed tops that will quickly make a most satisfactory showing on your grounds.

BUSINESS TERMS—CONDITIONS OF SALE

Prices quoted are F. O. B. Barrington, Illinois. Where delivery is by truck a nominal charge will be made to cover the actual cost.

Claims for any cause must be made upon receipt of goods.

Certificate of inspection will accompany each shipment.

Our terms of payment are—cash with order, less 3% discount.

Prices quoted in this list void after spring 1929 shipping season.

Japanese Barberry

ORNAMENTAL FLOWERING SHRUBS

	Each	Per 10	Per 100
BARBERRY—JAPANESE (<i>Berberis thunbergii</i>)			
Small green foliage, turning coppery red in autumn. Yellow blossoms in May. Red berries in fall lasting through winter. Height. 3 to 4 feet at maturity.			
18 to 24 inches—3 yr.	\$0.40	\$3.00	\$24.00
		Per 1000	\$200.00
2 to 2½ feet—3 yr.50	4.50	36.00
		Per 1000	\$325.00
CORALBERRY (<i>Symphoricarpos vulgaris</i>)			
Also called Indian Currant. Pink blossoms in July. Small red berries in autumn and winter. Height at maturity, about 4 feet. Of vigorous growth—can be used in shady places.			
3 to 4 feet.	0.45	3.50	25.00
DEUTZIA—PRIDE OF ROCHESTER			
(<i>Deutzia scabra</i> , var. <i>Pride of Rochester</i>)			
Large double white flowers in May. Height at maturity, 6 to 8 feet.			
2 to 2½ feet.	0.40	3.00	25.00
DOGWOOD—BLOODTWIG (<i>Cornus sanguinea</i>)			
White blossoms in June. Black fruit. Branches deep red and upright. Very attractive in winter. Height at maturity, about 6 feet and up.			
3 to 4 feet.	0.60	5.00	40.00
DOGWOOD—RED-OSIER (<i>Cornus stolonifera</i>)			
White blossoms in June. White fruit. Smooth, slender, prostrate branches, brilliant red in winter. Height at maturity, about 6 feet and up.			
3 to 4 feet.	0.50	4.00	30.00
FORSYTHIA—BORDER (<i>Forsythia intermedia</i>)			
Golden yellow blossoms in April, appearing before the leaves are out. Slender arching branches. Height at maturity, 6 to 8 feet or more.			
2 to 3 feet.	0.40	3.50	30.00
FORSYTHIA—FORTUNE (<i>Forsythia fortunei</i>)			
Bright golden yellow blossoms in April. Deep green foliage. Upright growth. Height at maturity, about 8 feet.			
3 to 4 feet.	0.50	4.50	36.00

Ornamental Flowering Shrubs (*Continued*)

	Each	Per 10	Per 100
FORSYTHIA—GREENSTEM (<i>Forsythia viridissima</i>)			
Deep yellow blossoms in April. Height, about 8 feet at maturity.			
4 to 5 feet.....	0.55	4.50	40.00
HONEYSUCKLE—BRIDE (<i>Lonicera tatarica grandiflora</i>)			
Large bright red flowers striped with white, in June. Very vigorous. Height at maturity, about 10 feet.			
3 to 4 feet.....	0.50	4.00	35.00
HONEYSUCKLE—MORROW (<i>Lonicera morrowi</i>)			
White blossoms in May and June. Covered with bright red fruit from the late summer until winter. Height, about 6 feet at maturity.			
4 to 5 feet.....	0.60	4.50	40.00
HONEYSUCKLE—WHITE TATARIAN (<i>Lonicera Tatarica alba</i>)			
White blossoms in May and June. Red or orange berries in late summer and autumn. Height at maturity, 6 to 8 feet.			
2 to 3 feet.....	0.40	3.00	25.00
3 to 4 feet.....	.50	4.00	35.00
HONEYSUCKLE—ROSY TATARIAN (<i>Lonicera Tatarica rosea</i>)			
Similar to White Tatarian Honeysuckle. Blossoms deep pink.			
2 to 3 feet.....	0.40	3.00	25.00
4 to 5 feet.....	.50	4.00	35.00
HONEYSUCKLE—WHITE-BELL (<i>Lonicera bella albida</i>)			
White blossoms in May and June. Bears bright red berries during most of the summer.			
2 to 3 feet.....	0.30	2.50	20.00

Honeysuckle

Ornamental Flowering Shrubs (*Continued*)

	Each	Per 10	Per 100
HYDRANGEA—PEEGEE (<i>Hydrangea paniculata grandiflora</i>)			
Huge panicles of white flowers in late summer or early fall, changing to rose and purple tints and then to bronze green and brown. Height at maturity, 7 feet or more. Yearly trimming of branches will produce larger bloom.			
12 to 18 inches.....	0.40	3.00	25.00
2½ to 3 feet.....	.70	6.50	60.00
LILAC—COMMON PURPLE (<i>Syringa vulgaris</i>)			
Bluish purple fragrant flowers in May. Height at maturity, 8 to 10 feet.			
2 to 3 feet.....	0.50	4.00	35.00
3 to 4 feet.....	.65	5.50	50.00
LILAC—COMMON WHITE (<i>Syringa vulgaris alba</i>)			
Same as Common Purple Lilac, with the exception of blossoms, which are white.			
2 to 3 feet.....	0.70	6.00	55.00
3 to 4 feet.....	.80	7.00	65.00
LILAC—PERSIAN PURPLE (<i>Syringa persica</i>)			
Pale lilac blossoms in May and June. Slender arching branches. Height, about 8 feet at maturity.			
3 to 4 feet.....	0.75	6.50	55.00
	Per 1000		\$400.00
LILAC—PERSIAN WHITE (<i>Syringa persica alba</i>)			
Same as Purple Persian Lilac, excepting flowers, which are white.			
2 to 3 feet.....	0.75	6.50	60.00
MCCKORANGE—AVALANCHE (<i>Philadelphus avalanche</i>)			
Large, fragrant white flowers in June, blooming in such profusion as to weigh the slender arching branches almost to the ground. Height at maturity, about 10 feet.			
2 to 3 feet.....	0.50	4.00	35.00

Persian Lilac

Privet Hedge

Ornamental Flowering Shrubs (*Continued*)

	Each	Per 10	Per 100
MOCKORANGE—SWEET (<i>Philadelphus coronarius</i>)			
An abundance of creamy white, sweetly scented flowers in May or June. Height at maturity, about 8 feet.			
3 to 4 feet.....	0.45	3.50	30.00
NINEBARK—GOLD LEAF (<i>Physocarpus opulifolius luteus</i>)			
White flowers in June. Bright yellow leaves. Height, 8 feet and higher at maturity.			
3 to 4 feet.....	0.45	3.50	
PLUM—FLOWERING (<i>Prunus triloba</i>)			
Blooms in May before leaves are opened. Very large double delicate pink flowers closely arranged on long, slender branches.			
3 to 4 feet.....	0.75	6.50	60.00
PRIVET—AMUR N. (<i>Ligustrum amurense</i>)			
Dark green leaves, which often remain almost the entire winter. White flowers in June. Black berries. Excellent for hedge; when trimmed will become very dense.			
12 to 18 inches, 3 canes and up.....	0.12	1.00	9.00
		Per 1000	\$80.00
18 to 24 inches, 3 canes and up.....	.17	1.40	12.00
		Per 1000	\$110.00
3 to 4 feet, 3 yr., 8 canes and up.....	.40	3.00	28.00
		Per 1000	\$220.00
PRIVET—IBOTA (<i>Ligustrum ibota</i>)			
Spreading shrub; good for border or trimmed hedge. White flowers in June. followed by black berries.			
18 to 24 inches.....	0.18	1.50	12.50
2 to 3 feet, 8 canes and up.....	.25	2.00	16.00
PRIVET—REGEL (<i>Ligustrum regelianum</i>)			
Low shrub, with spreading branches drooping gracefully. Black berries remain on all winter.			
18 to 24 inches, true spreading form.....	0.45	3.50	30.00
2 to 3 feet.....	.55	4.50	36.00
		Per 1000	\$300.00

Ornamental Flowering Shrubs (*Continued*)

	Each	Per 10	Per 100
QUINCE—FLOWERING (<i>Cydonia japonica</i>)			
Covered with scarlet flowers early in spring. Dark green, glossy leaves. Height at maturity, about 6 feet.			
2 to 3 feet.....	0.70	6.00	50.00
SNOWBERRY—COMMON (<i>Symphoricarpos racemosus</i>)			
Pink blossoms in July, followed by waxy white berries in great profusion. Height at maturity, 4 to 5 feet.			
3 to 4 feet.....	0.45	3.50	30.00
SPIREA—FROEBEL (<i>Spiraea froebelli</i>)			
Clusters of deep pink flowers in July and August. Green leaves, turning red in autumn. Medium height.			
2 to 2½ feet.....	0.45	3.50	30.00
SPIREA—GARLAND (<i>Spiraea arguta</i>)			
Masses of white flowers in May. Height at maturity, 3 to 5 feet.			
2 to 3 feet.....	0.50	4.00	35.00
SPIREA—MAGARITA (<i>Spiraea margaritae</i>)			
Corymbs of bright pink flowers in July and August. Height at maturity, about 5 feet.			
2 to 3 feet.....	0.45	3.50	30.00
SPIREA—VANHOUTTE (<i>Spiraea vanhouttei</i>)			
Also called Bridal Wreath. Spreading branches forming arches which are covered with clusters of pure white flowers in May and June. Deep green leaves. Height at maturity, about 6 feet.			
3 to 4 feet.....	0.50	4.00	35.00
SUMAC—STAGHORN (<i>Rhus typhina</i>)			
Takes its name from its velvety branches, which resemble a stag's horns. Bears scarlet fruit; leaves turn yellow and red in autumn. Height at maturity, 15 to 20 feet.			
8 to 10 feet.....	1.00	8.50	75.00
TAMARIX—AFRICAN (<i>Tamarix africana</i>)			
Bright pink flowers in April and May. Foliage is light green and very feathery. Height at maturity, about 15 feet.			
4 to 5 feet.....	0.60	5.00	45.00
VIBURNUM—DOUBLEFILE (<i>Viburnum tomentosum</i>)			
Flat clusters of white flowers along branches, in June. Berries red, changing to black. Height at maturity, about 8 feet.			
18 to 24 inches.....	0.70	6.00	50.00
WEIGELIA—PINK (<i>Weigelia rosea</i>)			
Weigelia is also called Diervilla. Rose-pink flowers in June. Erect, compact growth. Height at maturity, about 6 feet.			
3 to 4 feet.....	0.50	4.00	35.00

Woodward Arborvitae

White Spruce

EVERGREENS

	Each	Per 10	Per 100
ARBORVITAE—AMERICAN (<i>Thuja occidentalis</i>)			
Pyramidal. Foliage soft and flexible, of deep green color. Can be trimmed suitable for hedge.			
1½ to 3 feet xxx B&B.....	\$1.35	\$12.50	
2 to 3 feet xxx B&B.....	1.65	15.00	
ARBORVITAE—WOODWARD (<i>Thuja occidentalis</i> Woodwardi)			
One of the best of the globe-shaped Arborvitae. Does not require trimming to maintain natural globe shape. Grows to about three feet height and diameter.			
8 to 10 inches xx B&B.....	1.35	12.50	
10 to 12 inches xx B&B.....	1.65	15.00	
FIR—DOUGLAS (<i>Pseudotsuga douglasi</i>)			
Of symmetrical pyramid-like form. Grows to height of 60 feet or more.			
1½ to 2 feet xxx B&B.....	2.75	25.00	
2 to 3 feet xxx B&B.....	4.25	40.00	
SPRUCE—WHITE (<i>Picea canadensis</i>)			
Light green foliage, slightly tinged with blue. Hardy, free growing, long lived. Attains heights of 25 to 50 feet.			
1 to 1½ feet xx B&B.....	1.65	15.00	
1½ to 2 feet xx B&B.....	2.00	18.00	
B&B signifies balled and burlapped. Each x indicates once transplanted.			

VINES

CREEPER—ENGELMANN (<i>Ampelopsis quinquefolia engelmanni</i>)			
Splendid climber. Clings to walls without trellis. Height, 20 to 30 feet at maturity.			
3 yr.	\$0.50	\$3.50	\$25.00
HONEYSUCKLE—TRUMPET (<i>Lonicera sempervirens</i>)			
Strong, rapid growing, climber. Scarlet flowers.			
3 yr.	0.50	4.00	35.00

Lombardy Poplar

Umbrella Catalpa Bungei

SHADE TREES

	Each	Per 10	Per 100
CATALPA—UMBRELLA (<i>Catalpa bignonioides nana</i>)			
Commonly, though incorrectly, called "Catalpa Bungei."			
A very ornamental tree, having a broad umbrella-like head bearing large leaves in a formation resembling shingles. Hardy.			
6 ft stems—3 year heads.....	\$3.50	\$30.00	\$290.00
ELM—AMERICAN (<i>Ulmus americana</i>)			
One of the most beautiful and desirable of American trees for street or lawn planting. Graceful spreading branches, forming a wide arching top. Attains great height.			
5 to 6 feet.....	0.80	7.50	70.00
6 to 8 feet.....	1.20	11.00	100.00
8 to 10 feet.....	2.10	20.00	180.00
ELM—MOLINE (<i>Ulmus americana molini</i>)			
A variety of the American elm. Conical in shape when young, the branches spreading horizontally as the tree becomes older. Uniform in habit and of rapid growth.			
5 to 6 feet.....	1.25	11.50	
6 to 8 feet.....	1.50	13.50	
8 to 10 feet.....	2.50	22.50	
ELM—VASE-SHAPED (<i>Ulmus americana urni</i>)			
This is also a propagated variety of the American elm. As its name implies, this is a vase-shaped tree. Very graceful, uniform, and of rapid growth.			
5 to 6 feet.....	1.00	9.00	85.00
6 to 8 feet.....	1.25	11.50	105.00
8 to 10 feet.....	2.00	18.00	170.00
PLUM—AMERICAN WILD (<i>Prunus americana</i>)			
Low, spreading branches. Bears white flowers in spring and is very decorative. Rapid growth.			
6 to 8 feet.....	0.75	6.50	50.00
POPLAR—LOMBARDY (<i>Populus nigra italica</i>)			
Grows very tall, erect and spire-like. Of exceptionally rapid growth and very hardy.			
10 to 12 feet high—1 to 1½ inch caliper.....	2.75	22.50	200.00
12 to 14 feet high—1½ to 2 inch caliper.....	4.00	35.00	300.00
